The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 8-9 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Boehland, of record.

Boehland shows a solenoid actuated valve as claimed with structure which makes an abrupt change in shape including surface 35 and the longitudinally extending surfaces immediately upstream and down stream thereof, and a guide surface at the lead line of "16", which surface is read as avoiding cavitation in view of the flow diagram of Figure 3. The cited structure shown in Boehland can reasonably be described as a step.

In claim 22, paragraph 6, "the upstream surface" is interpreted to mean - - an upstream surface - - and in paragraph 7 "said step portion" is understood to mean - - said step - -.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3753

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
